OFFICE OF THE OFFICIAL SECRETARY TO THE GOVERNOR-GENERAL

Section 1: Overview

The planned outcome for the Office of the Official Secretary to the Governor-General is that *the Governor-General is enabled to perform the constitutional, statutory, ceremonial and public duties associated with the appointment.*

The office of Governor-General was established by the Constitution of the Commonwealth of Australia. Under the Constitution, the executive power of the Commonwealth is exercisable by the Governor-General as Her Majesty The Queen’s representative in Australia, and extends to the execution and maintenance of the Constitution and the laws of the Commonwealth.

Broadly, the Governor-General’s duties fall into three categories: constitutional and statutory duties, ceremonial duties and representational duties.

The statutory office of the Official Secretary to the Governor-General was established in December 1984 by amendment to the *Governor-General Act 1974*. Before that date, the Governor-General’s Office was administered as part of the Department of the Prime Minister and Cabinet. Under the Administrative Arrangements Order, the Governor-General Act is administered by the Prime Minister.

The Office contributes to its planned outcome by providing two outputs:

- Output 1.1 – Support of the Governor-General
- Output 1.2 – Administration of the Australian Honours and Awards System.

Section 2: Resources for 2006–07

The total price of outputs for 2006–07 for the Office of the Official Secretary to the Governor-General is \$10.935 million, of which \$10.838 million is being sourced from departmental appropriations. The balance of \$0.097 million is being obtained from other sources, including resources provided free of charge (see Table 2.3 for a breakdown).

Total administered expenses appropriation for 2006–07 is \$1.561 million, which includes \$0.365 million from special appropriations.

The Office is also receiving \$3.191 million in capital funding.

2.1 APPROPRIATIONS AND OTHER RECEIPTS

Table 2.1 shows the total receipts from all sources for 2006–07, including appropriations. The table summarises how receipts will be applied by outcome, separated into departmental and administered classifications.

- b Includes new administered expenses and administered assets and liabilities.

Notes:

- Under the appropriation structure, Bill No. 2 includes Specific Purpose Payments (SPPs), new agency outcomes (NAOs), administered capital and departmental capital via departmental injections and loans.
- Refer to Budgeted Income Statement for application of agency revenue.

2.2 2006–07 BUDGET MEASURES

There are no new measures affecting the Office’s Outcome for the budget year.

2.3 OTHER RESOURCES AVAILABLE TO BE USED

Table 2.2 provides details of resources obtained by the Office of the Official Secretary to the Governor-General for the provision of goods or services. These resources are approved for use by the Office and are included in Table 2.1.

2.7 ADMINISTERED CAPITAL AND DEPARTMENTAL EQUITY INJECTIONS AND LOANS

The Office will receive \$3.191 million in departmental equity injection in 2006–07 (refer to Table 2.1) for the development and management of the two official residences of the Governor-General—Government House, Canberra, and Admiralty House, Sydney. The equity injection will be used for:

- The construction of a replacement building at Government House to provide more appropriate office accommodation for the Honours and Awards Secretariat. The secretariat is housed in inadequate former residential accommodation dating back to the 1920s. An equity injection of \$1.224 million will be provided in 2006–07 towards the construction cost of the building and associated civil works.
- Implementation of a property works programme for the development and maintenance of the Office's two official residences. In the 2005–06 Budget, the government agreed to a 10-year property works programme to enable necessary development and maintenance of the two official residences. A capital injection of \$1.967 million will be provided in 2006–07 to meet the estimated cost of works to be undertaken in that financial year.

Section 3: Outcomes

This section explains how the resources identified in Section 2 will be used to deliver outputs and administered items to contribute to the one outcome for the Office of the Official Secretary to the Governor-General.

3.1 SUMMARY OF OUTCOMES AND CONTRIBUTION TO OUTCOMES

The relationship between activities of the Office of the Official Secretary to the Governor-General and the outcomes and outputs for the Office is summarised in Figure 1.

There has been no change to the Office’s outcomes and outputs structure from the 2005–06 Portfolio Budget Statements.

Figure 1: Contributions to outcomes

3.2 OUTCOMES—DEPARTMENTAL AND ADMINISTERED

Figure 2: Departmental appropriations by output, 2006–07

The decrease of resources allocated to Output 1.1 for 2006–07 is mainly due to variations of the cost of works and maintenance associated with the implementation of the property works programme. The increase in the level of resources allocated to Output 1.2 in 2006–07 reflects the full year effect of increased staff resources, which is partly offset by reduced expenses for the provision of temporary office accommodation for the Honours and Awards Secretariat staff.

Measures affecting Outcome 1

There are no new measures affecting the Office's Outcome for the budget year.

Contributions to achievement of Outcome 1

The outputs of the Office of the Official Secretary to the Governor-General contribute to the achievement of the government's outcome: *The Governor-General is enabled to perform the constitutional, statutory, ceremonial and public duties associated with the appointment.*

Output 1.1 resources are directed to:

- assisting Their Excellencies with their representational activities, including through planning and organising functions and events, liaising with representatives of governments, governmental authorities, Buckingham Palace, community groups and individuals, and preparing drafts of messages, speeches and correspondence; the output also provides advice on policy, precedent and practice
- managing the households at Government House, Canberra, and Admiralty House, Sydney, to a high standard through providing hospitality services for official functions, ongoing support for Their Excellencies while in residence and servicing the needs of visiting Royalty, heads of state and other guests who remain at one of the residences during visits to Australia
- managing and providing property development and maintenance, caretaking, and gardening functions at each of the Office's official residences.

Output 1.2 resources are directed to:

- conducting comprehensive and independent research and analysis of nominations for awards
- providing high-level secretariat support to honours advisory bodies
- interpreting and applying gazetted regulations for defence, meritorious and long service awards to ensure that applicants meet eligibility criteria
- the procurement of high-quality insignia, warrants and honours publications
- maintaining the official registers of all national awards.

Performance information for Outcome 1

Performance information for administered items, individual outputs and output groups relating to the Office of the Official Secretary to the Governor-General are summarised in Table 3.2.

Evaluations for Outcome 1

The performance of the Office's activities is evaluated through both internal and external audits. The Audit Committee is an important part of the Office's evaluation strategy. Reviews conducted throughout the year are tabled at each Audit Committee meeting and members consider the findings and recommendations. Agreed recommendations are incorporated into the Office's practices and procedures. The Audit Committee is chaired by the Official Secretary.

The audit programme includes a combination of compliance and performance reviews. Internal audit activity is undertaken by WalterTurnbull Chartered Accountants.

The Office is also covered by the programme of the Australian National Audit Office (ANAO) and may be involved in some cross-portfolio audits or benchmarking activities.

Section 4: Other reporting requirements

4.1 PURCHASER–PROVIDER ARRANGEMENTS

The Office has no purchaser–provider arrangements with other agencies.

4.2 COST RECOVERY ARRANGEMENTS

The Office has no cost recovery arrangements with other agencies.

4.3 AUSTRALIAN GOVERNMENT INDIGENOUS EXPENDITURE

The Office has no specific Indigenous expenditure programmes.

Section 5: Budgeted financial statements

ANALYSIS OF BUDGETED FINANCIAL STATEMENTS

Departmental

Statement of financial performance

The Office is budgeting for a balanced budget in 2006–07 before the transfer of capital expenditure on completed works to the administered accounts.

Total revenue and expenses are estimated at \$10.935 million in 2006–07. This is a decrease of \$0.216 million on the 2005–06 appropriation. The decrease is principally due to variations in the cost of works and maintenance associated with the implementation of the property works programme (compared to the 2005–06 programme) and the provision of temporary office accommodation for the Honours and Awards Secretariat during the construction of a replacement building for the secretariat staff.

Statement of financial position

Movement in the Office's net asset position is principally the result of property works and the construction of a replacement building for the Honours and Awards Secretariat. Capital works projects are funded in departmental expenses and on completion of the project the expense is then moved to the administered accounts for capitalisation. The movement in receivables also reflects this process as funds are drawn down to meet capital works requirements.

The Office's primary liability is accrued employee entitlements.

Administered

Budgeted revenue and expenses

The Office will receive appropriation revenue of \$ 1.561 million in 2006–07. This is an increase of \$0.014 million on the 2005–06 appropriation. The increase in funding is due to the application of cost indexes to the Office's budget estimates.

Budgeted assets and liabilities

Total assets are expected to continue to increase, reflecting non-financial asset revaluations and the transfer of completed capital projects from departmental accounts.

NOTES TO THE FINANCIAL STATEMENTS

The notes below link back to the financial statements.

Resources received free of charge

Note 1. The Australian National Audit Office (ANAO) is responsible for auditing the annual financial statements of the Office of the Official Secretary to the Governor-General. This service is provided free of charge.

Capitalisation of assets derived from capital works activity

Note 2. Under the Office's accounting policy, the buildings, property, household furniture and fine arts of the Governor-General's official establishments and his primary official vehicle are classed as administered assets. Capital improvements to the Office's official establishments are purchased from departmental appropriations and are recorded in the operating statements as a departmental expense. The approved accounting treatment that enables capitalisation of these assets as administered in the financial statements requires recognition of the expense in the *Budgeted departmental income statement* (Table 5.1) and as an item of revenue in the *Schedule of budgeted income and expenses administered on behalf of the government* (Table 5.7).

Note 3. As advised under *Administered capital and departmental equity injections and loans* in Section 2.7, departmental equity injection is being provided for the implementation of the property works programme covering both Admiralty House and Government House, and the construction of a replacement building for the Honours and Awards Secretariat.

The funding for capital works allocated in 2006–07 is estimated to be fully spent. Where, because of changes in priorities or through delays in project implementation, funds are not spent in a particular year of appropriation, the funds are carried forward to future years to meet the Office's capital works requirements.

Note 4. This refers to the planned capital improvements to the official establishments in 2006–07 being funded from departmental equity injections for capital works (see note 3). In keeping with the Office's current accounting policy (see note 2), these capital improvements are funded from a departmental capital injection and are then transferred to the administered accounts for capitalisation.
